
CONGRATULATIONS

on your choice to
breastfeed

“There can be no food more locally produced, more sustainable or more environmentally friendly than a mother’s breastmilk, the only food required by an infant for the first six months of life. It is a naturally renewable resource, which requires no packaging or transport, results in no waste and is free.”

What is an IBCLC?

An International Board Certified Lactation Consultant (IBCLC) is a healthcare professional who specializes in the clinical management of breastfeeding.

IBCLCs are certified by the International Board of Lactation Consultant Examiners, Inc. and are considered the gold standard in breastfeeding care. You may notice many job titles but there is only one recognized credential.

When you trust your care to an IBCLC you can rest assured that you are receiving the highest quality of evidence based care that is backed by the most current research.

IBCLCs work in a wide variety of healthcare settings, including hospitals, pediatric offices, public health clinics, and private practice.

SERVICES

In-home consultation - \$75
Private office consult - \$50
Follow up consult - \$25
Prenatal BF class - \$25

Possible consult reasons:

- Difficulty latching/nursing
- Breast/nipple pain
- Slow infant weight gain
- Transition from NICU to home
- Going back to school/work
- Ready to wean gently

After reviewing your health history and the details of your birth, a complete feeding will be observed while implementing any necessary interventions. Your newfound confidence will help us outline a lactation care plan together. A written report of our consult will be mailed to your primary care provider.

BABYMOON INN CLIENTS:

Please inquire about your discount and your exclusive \$10 Walk-in Wednesdays.

Classes conveniently located
